WEIGHED BY: Beck's Hybrids-Scott Kinney

“My Beck’s dealer recommended that I use 5339CBCL on a rougher piece of ground and plant it at a population around 30,000. The stand and health of this hybrid contributed to the highest yields I have ever had in my farming career on that rough farm. I am pleased with the yields and the support I get from Beck’s.”

WEIGHED BY: Beck's Hybrids-Carl Harlan, Joe McElhoo

“Beck’s had some of the best corn we ever shelled this year; excellent emergence and good standability. Placed on hill ground, the Beck’s out yielded everything else we planted. The FaSTart seed treatment enabled us to get a near perfect stand, too. We plan to increase our business with Beck’s next year.”

WEIGHED BY: Dennis Webster

“Having a farmer-dealer who knows our area is real important to our family farm. Eight years ago, Beck’s came to this area and since that time we have enjoyed working with a family owned company that has good products and good people who can help us.

SureGro treatment at no extra charge on soybeans is a great thing for our heavy soils and no-till planting system.”

Dennis & David Elliott
Henderson, KY
