WEIGHED BY: Beck's Hybrids-Craig Spray

“Our Beck 323RR Sure Gro treated soybeans planted on 140 acres yielded over 68 Bu./A. this year. Along with our Beck 5166 and 5322 corn hybrids we have a winning combination on both corn and beans. We also enjoy the fact that when we wish to talk to someone from Beck’s Hybrids we have the opportunity to talk to our Dealer, DSM or directly to the president, Sonny Beck. It’s great when one family business can work with another family business and both parties can be successful.”
