

# Discover the facts

**Raise Yields**

**Lower Cost**

**Time Convenience**

**Knock Out More Weeds**

*Roundup Ready<sup>®</sup>  
Corn 2 Hybrids*

# In Beck's Marketing Area, many farmers have not tried **Roundup Ready Corn 2**

## WEED RESISTANCE

"I am concerned about developing weed resistance on my farm."

### WEED RESISTANCE FACTS:

Glyphosate (Roundup® Herbicide) has been used for over 30 years with only four weeds on its label being confirmed as resistant to glyphosate in the world, and only two in the Midwest. Compare this fact with the rate of resistance and number of weeds that have developed resistance to other popular herbicides shown in the chart.

Tradenames	Mode of Action	Active Ingredient	Chemical Family	Worldwide Statistics				
				Years of use	# of Weeds on label	# of Resistant Weeds on label	% Resistant Weeds	
Roundup	EPSP Synthase Inhibitors	Glyphosate	Glyphosate	34	309	4*	1%	
Pursuit		Imidazopyr	Imidazolinone	21	118	30	25%	
Accent		ALS Inhibitors	Nicosulfuron	Sulfonylurea	18	43	12	28%
Classic			Chlorimuron	Sulfonylurea	23	57	16	28%
Aatrex	Photosystem II Inhibitors	Atrazine	Triazine	48	69	29	42%	
Sencor		Metribuzin	Triazine	37	102	28	28%	
Princep		Simazine	Triazine	50	48	27	56%	
Poast	ACCCase Inhibitors	Sethoxydim	Cyclohexendione	NA	39	15	39%	
Select		Clethodim	Cyclohexendione	18	56	12	21%	
Fusilade	Synthetic Auxins	Fluzafop	Aryl-oxy-phenoxy	25	44	15	34%	
2,4-D		2,4-D	Phenoxy	63	214	10	5%	
Banvel		Dicamba	Benzoic	40	259	10	4%	
Treflan		Trifluralin	Dinitroaniline	46	50	5	10%	
Prowl	Cell Mitosis Inhibitors	Pendimethalin	Dinitroaniline	33	57	6	11%	
Sonalan		Ethalfuralin	Dinitroaniline	32	43	5	12%	

\*There are only two weeds found to be resistant to glyphosate in the Midwest.

## GRAIN MARKETING

"Where can I sell Roundup Ready Corn 2?"

### GRAIN MARKETING FACTS:

Roundup Ready Corn is now approved in the European Union, which means no more channeling to US markets alone. Roundup Ready Corn 2 stacked with YieldGard Corn Borer and/or YieldGard Rootworm are not yet approved for grain import into the EU.

## VOLUNTEER CORN

"How do I get rid of volunteer Roundup Ready Corn in my Roundup Ready soybean fields?"

### VOLUNTEER CORN FACTS:

Using corn borer and rootworm resistant Roundup Ready hybrids can minimize ear drop and lodging. If you use Roundup WeatherMAX (or Roundup Original MAX) and need to spray for volunteer Roundup Ready corn, you can get \$2.60/acre (or \$1.30/acre) cost share for Select® herbicide.

Harness Xtra and Roundup Ready are registered trademarks of Monsanto | Pursuit and Prowl are registered trademarks of BASF Ag | Accent and Classic are registered trademarks of Dupont Atrax, Princep and Fusilade are registered trademarks of Syngenta | Sencor is a registered trademark of Bayer Crop Science | Poast and Banvel are registered trademarks of Micro Flo Select is a registered trademarks of Valent | 2,4-D is a registered trademarks of Nufarm T & S | Treflan and Sonalan are registered trademarks of Dow Agro Sciences

# Here's why more farmers are going to plant Beck's Roundup Ready Corn 2

## Genetic Yield Improvements

Beck's new families and hybrids in Roundup Ready Corn 2 show yield improvements over traditional hybrid families.

<b>NEW</b> BECK 5444RR Genetics vs.	BECK 6599CBRR, BECK 5422, Garst 8450IT	+20 Bushels/Acre in 12 tests
<b>NEW</b> BECK 5507RWRG Genetics vs.	BECK 5422CBCL, Agrigold A6395, Golden Harvest H-8877	+14 Bushels/Acre in 17 tests
BECK 6722RR vs.	BECK 5399CBRR, BECK 5899CBRR, Pioneer 34H31	+11 Bushels/Acre in 31 tests

## Most Economical Weed Control System

The value of simplicity, effectiveness and price are greatest with Beck's Roundup Ready Corn 2

## Easy to use

Saves time and improves flexibility by increasing your spraying options.

Option 1	Option 2	Option 3
1. Burndown or tillage	1. Burndown or tillage	1. Burndown or tillage
2. Preemergence Herbicide at the "Roundup Ready Rate" e.g. Harness Xtra at 1.2 qt/A. (Approx. $\frac{2}{3}$ rate)	2. Single application of residual herbicide at recommended rate tank-mixed with Roundup after emergence to 30" tall corn	2. Postemergence spray of glyphosate Roundup herbicide at full recommended rate
3. Postemergence spray of a glyphosate product like Roundup	3. Postemergence spray of a glyphosate product like Roundup if necessary	

## Deadly to Weeds, Safe on Corn

- Broadest spectrum of weed control (309 weeds on label)
- Widest window of application (up to 48" height using drops)
- Safe to plant beside Roundup Ready soybeans
